

## **Curriculum Intent Statement – Geography**

Here at St. Winefride's Primary School, we believe that Geography helps to provoke and provide answers to questions about the natural and human aspects of the world. We aim to deliver a high-quality curriculum, rich in essential knowledge and skills, which inspires our children's curiosity and fascination about our world and its people. We challenge them to think about their own place in the world, their rights and responsibilities to other people as well as their responsibilities to the environment. We provide opportunities to work collaboratively as a school to enhance our learning, in Geography, further.
