

Curriculum Intent Statement – RSE (Relationships and Sex Education)

Here at St. Winefride's Primary School, our aim is to support children through their physical, emotional, moral and spiritual development in accordance with the teachings of the Church, our school ethos and our Christian beliefs. We endeavour to ensure that our children grow up as informed and responsible adults who understand the importance of family values. Through the teaching of RSE (Relationships and Sex Education), we encourage our children to be sensitive to the different needs of individuals in respect of their different abilities, personal circumstances, sexual orientation, faith or culture. Our children are encouraged to make practical judgements about the right choices to make in particular situations, enabling them to become active and healthy citizens, contributing positively to society.
